

Reader's Theater, Jr.™

This is a unique series of ten important early childhood topic sets, each of which include one full length Reader's Theater story and five mini stories designed to be read first and help prepare young readers for the full length story (along with additional materials). The five mini stories, called Mini Transition Books, each focus on a certain element of the main story in a much shorter format, and are designed to be read in a sequence over a series of class sessions that fits a preschooler's attention span while building learning. Sets include Teacher's Guide, Recommended Reader Assignment Guide, Sight Word Cards, Character Strips, Performance Award Certificates, and Supplemental Activity Sheets. Character Prop Kits included.
